DONT MESS WITH SENIORS

Sally was driving home from one of her business trips in Northern Arizona when she saw an elderly Navajo woman walking on the side of the road.

As the trip was a long and quiet one, she stopped the car and asked the Navajo woman if she would like a ride. With a silent nod of thanks, the woman got into the car.

Resuming the journey, Sally tried in vain to make a bit of small talk with the Navajo woman. The old woman just sat silently, looking intently at everything she saw, studying every little detail, until she noticed a brown bag on the seat next to Sally.

"What in bag?" asked the old woman. Sally looked down at the brown bag and said, "It's a bottle of wine. I got it for my husband."

The Navajo woman was silent for another moment or two. Then speaking with the quiet wisdom of an elder, she said, "Good trade."

A doctor was addressing a large audience in Vancouver.

"The material we put into our stomachs is enough to have killed most of us sitting here, years ago. Red meat is awful. Soft drinks corrode your stomach lining. Chinese Food is loaded with MSG. High fat diets can be disastrous, and none of us realizes the long-term harm caused by the germs in our drinking water.

But there is one thing that is the most dangerous of all and we all have, or will, eat it. Can anyone here tell me what food it is that causes the most grief and suffering for years after eating it?

After several seconds of quiet, a 75-year-old man in the front row raised his hand, and softly said, "Wedding Cake!"

"The Mikado" and Lunch on Saturday 14th August.
